

Satellogic to Participate in Key Industry Conferences in March and April

March 2, 2023

NEW YORK--(BUSINESS WIRE)--Mar. 2, 2023-- [Satellogic](#) Inc. (NASDAQ: SATL), a leader in sub-meter resolution Earth Observation ("EO") data collection, today announced its participation in several key industry conferences in March and April: the Esri Partner Conference in Palm Springs, CA; the GeoBuiz Summit in Monterey, CA; SATELLITE 2023 in Washington, DC; the World Agri-Tech Innovation Summit in San Francisco, CA; and CYSAT in Paris.

Esri Partner Conference

Date: March 4 – 6, 2023

Location: Palm Springs, CA

The Esri Partner Conference brings together Esri partners and distributors to collaborate in-person and solve problems using the Esri technology. The Satellogic team will be onsite to discuss how the Company's industry-leading capacity is expanding and enriching data access for Esri's user base.

For more information on the Esri Partner Conference, please visit the conference website [here](#).

GeoBuiz Summit

Date: March 6 – 8, 2023

Location: Monterey, CA

Ryan McKinney, President of Satellogic North America, will be participating in the "New Space Deep Dive" session on March 7 at 2pm – 3:30pm PST.

For more information on the GeoBuiz Summit, please visit the conference website [here](#).

SATELLITE 2023

Date: March 13 – March 16, 2023

Location: Washington, DC

Ryan McKinney, President of Satellogic North America, will be participating on the "Enhancing Strategic Satellite Capabilities in the Arctic Region" panel on March 13 at 10:45am EST – 11:45am EST in Room 145 A/B.

For more information on SATELLITE 2023, please visit the conference website [here](#).

World Agri-Tech Innovation Summit

Date: March 14 – 15, 2023

Location: San Francisco, CA

Satellogic will be exhibiting at Booth #7.

For more information on the World Agri-Tech Innovation Summit, please visit the conference website [here](#).

CYSAT

Date: April 26 – 27, 2023

Location: Paris

Gerardo Richarte, CTO, CISO, and Co-Founder of Satellogic, will give a technical demo titled, "Secure Operations of a Constellation as a Service Platform," on April 26 at 3pm – 3:30pm CET. He will also participate in the "As a Service' Missions: How to Trade-Off Users Benefits and Security Risks?" panel on April 27 at 9:30am – 10:30am CET.

For more information on CYSAT, please visit the conference website [here](#).

About Satellogic

Founded in 2010 by Emiliano Kargieman and Gerardo Richarte, Satellogic (NASDAQ: SATL) is the first vertically integrated geospatial company, driving real outcomes with planetary-scale insights. Satellogic is creating and continuously enhancing the first scalable, fully automated EO platform with the ability to remap the entire planet at both high-frequency and high-resolution, providing accessible and affordable solutions for customers.

Satellogic's mission is to democratize access to geospatial data through its information platform of high-resolution images and analytics to help solve the world's most pressing problems including climate change, energy supply, and food security. Using its patented Earth imaging technology, Satellogic unlocks the power of EO to deliver high-quality, planetary insights at the lowest cost in the industry.

With more than a decade of experience in space, Satellogic has proven technology and a strong track record of delivering satellites to orbit and high-resolution data to customers at the right price point.

Forward Looking Statements

This press release contains “forward-looking statements” within the meaning of the U.S. federal securities laws. The words “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “might”, “plan”, “possible”, “potential”, “predict”, “project”, “should”, “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These forward-looking statements are based on Satellogic’s current expectations and beliefs concerning future developments and their potential effects on Satellogic and include statements concerning Satellogic’s strategies, Satellogic’s future opportunities, and the commercial and governmental applications for Satellogic’s technology. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. These statements are based on various assumptions, whether or not identified in this press release. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on by, an investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of Satellogic. Many factors could cause actual future events to differ materially from the forward-looking statements in this press release, including but not limited to: (i) Satellogic’s ability to scale its constellation of satellites and to do so on Satellogic’s projected timeframe and in accordance with projected costs, (ii) Satellogic’s ability to continue to meet image quality expectations, to continue to enhance the capability of its network of satellites and to continue to offer superior unit economics, (iii) Satellogic’s ability to become or remain an industry leader, (iv) the number of commercial applications for Satellogic’s products and services, (v) Satellogic’s ability to address all commercial applications for satellite imagery, changes in the competitive and highly regulated industries in which Satellogic operates, variations in operating performance across competitors and changes in laws and regulations affecting Satellogic’s business, (vi) the ability to implement business plans, forecasts and other expectations, and to identify and realize additional opportunities, (vii) the risk of downturns in the commercial launch services, satellite and spacecraft industry, (viii) the risk that Satellogic and its current and future collaborators are unable to successfully develop and commercialize Satellogic’s products or services, or experience significant delays in doing so, (ix) the risk that third-party suppliers and manufacturers are not able to fully and timely meet their obligations, (x) the risk of product liability or regulatory lawsuits or proceedings relating to Satellogic’s products and services, and (xi) the risk that Satellogic is unable to secure or protect its intellectual property. The foregoing list of factors is not exhaustive. You should carefully consider the foregoing factors and the other risks and uncertainties described in the “Risk Factors” section of Satellogic’s Annual Report on Form 20-F and other documents filed or to be filed by Satellogic from time to time with the Securities and Exchange Commission. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Satellogic assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Satellogic can give no assurance that it will achieve its expectations.
