The replay can also be viewed through the webcast link above and the presentation utilized during the call will be available in the Company's investor relations section [here](#).

About Satellogic

Founded in 2010 by Emiliano Kargieman and Gerardo Richarte, Satellogic (NASDAQ: SATL) is a vertically integrated Earth observation company that designs, manufactures, and operates satellite systems, delivering decision-grade insights at scale to government and commercial customers. Through an end-to-end production and operations model, Satellogic provides governments with flexible options across their journey toward sovereign Earth observation. From access to high-frequency imagery and managed space systems to full satellite ownership, to supporting autonomous data availability and long-term technological independence.

This integrated approach enables Satellogic to deploy satellites on predictable timelines and operate with capacity to support persistent coverage across large portfolios of sites. Satellogic enables continuous monitoring and alert-driven workflows that help defense and intelligence agencies, civil governments, and commercial operators move from reactive tasking to proactive decision-making, providing mission-critical data when it is needed.
